ReadMe

1. How to run the code?

This code is provided in the pandas environment. I used sample data for this assignment.

2. What was the thought process you went through in coming up with the solution?

I was struggling with data format in the beginning. I asked a team member who sent me the Technical Evaluation to clarify the data format . With his general guidance and some research, I realized where I had made a mistake.

3. What assumptions (if any) did you make?

Technology, Libraries, environments, Schedule, Resources

4. Why were certain decisions and/or assumptions taken?

Assumptions will help you communicate the situation you expect to be working within. You also need to plan for those unexpected events that throw your project plan in a tailspin. Identifying assumptions will increase the probability that your project will be completed successfully, on time
